Natalija Kušek i Margareta Cahunek

Dječji vrtić Tratinčica KOPRIVNICA

HRVATSKA

MEĐUNARODNA KONFERENCIJA  
„Z LOKALNO PRIDELANO HRANO I H GIBANJEM DO ZRAVEGA ŽIVLJENSKEGA SLOGA“  
U ORGANIZACJI DRUŠTVA DOVES-FEE SLOVENIJA  
LIPNJA 2021.

# Greetings from Koprivnica!

# DJEČJI VRTIĆ TRATINČICA

## KINDERGARTEN TRATINČICA

- We have been engaged in education for sustainable development for 20 years
- International Eco – School since 2015.
- Education for sustainable development is integrated into Kindergarten Curriculum
- the International Eco-School methodology is the backbone of environmental work in our kindergarten

# How we work?

- we have integrated the contents of sustainable development into our curriculum
- we are well equipped with didactics for learning about sustainable development, literature and picture books with eco content
- we using waste material for decorations, didactics, playing,..
- we are well connected with the local community and civil organizations considering environmental actions
- children actively participate in environmental activities
- environmental activities are aimed at parents and the local community
- in kindergarten we developed a waste disposal plan
- In all premises we have bins for separate waste collection
- we organize trips to protected parts of nature
- **AND LOTS OF ENVIRONMENTAL ACTIONS**

# ENVIRONMENTAL PROJECT

- „THE FOREST KEEPS THE EARTH'S BREATH“
- planting 80 oak seedlings
- „BIOWASTE IS NOT GARBAGE“
- „EVERY DROP OF WATER IS WORTH IT,  
SO SAVE IT „ - preservation of drinking  
water

ŠTO JE SVE VODA?

# ENVIRONMENTAL PROJECT

- „LET'S SAVE THE EARTH WITH COTTON BAGS“ against single-use plastic
- „HELP PLANET EARTH BREATHE“ – for sustainable traffic
- „Savin Plastic Bottle Caps for Medical Treatment“ – for recycling
- „Plant a Tree do not be a Stump“
- „Boranka - afforestation of burned parts of Dalmatia“

# MI JEDEMO ODGOVORNO

- "Our seed bank and preservation of the old tomato species - OxHeart tomato"
- "Eat healthy and homemade - be responsible to food"
- Teach children how to preserve seeds, how to sow and care for seedlings
- Introduce children with fruits and vegetables of our region, motivate children to eat seasonal food and prepare their it
- learn how to use food leftovers
- Motivate children and parants for food production

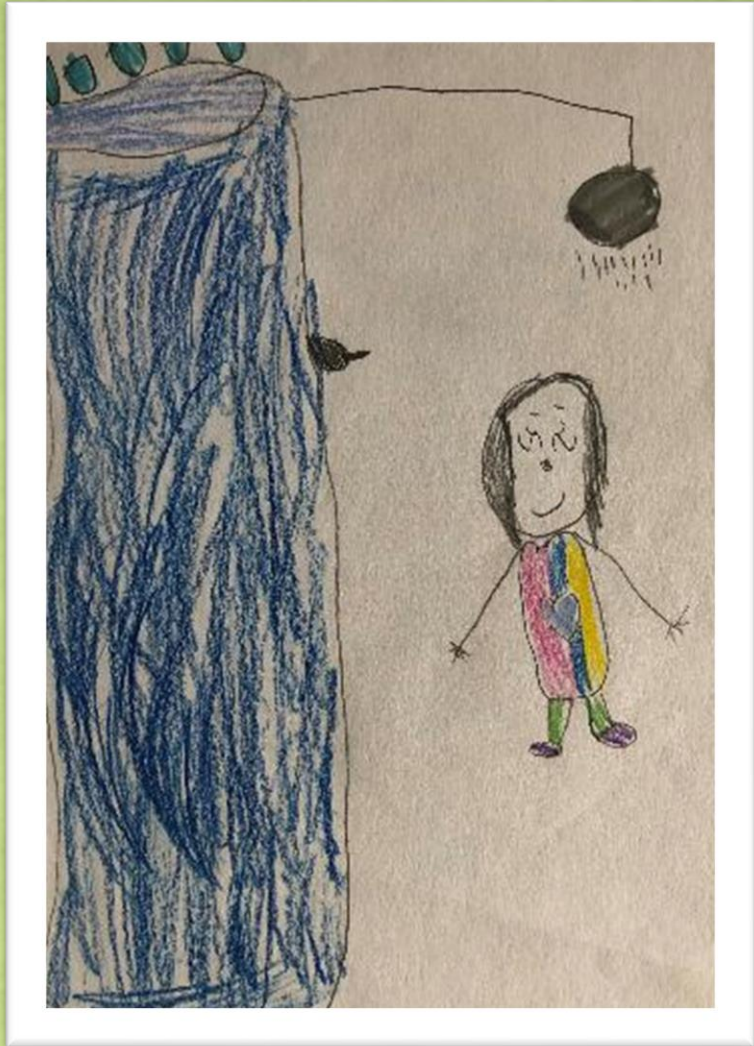

dragoj osobi koja se bavi vrtlarstvom zbog očuvanja bioraznolikosti.

POTPIS RODITELJA

# RAINWATER

What could you do  
with rainwater?  
Just think about it!

# LITTLE GARDENERS

HOW IT ALL STARTED . . .

# BIRD FEEDERS

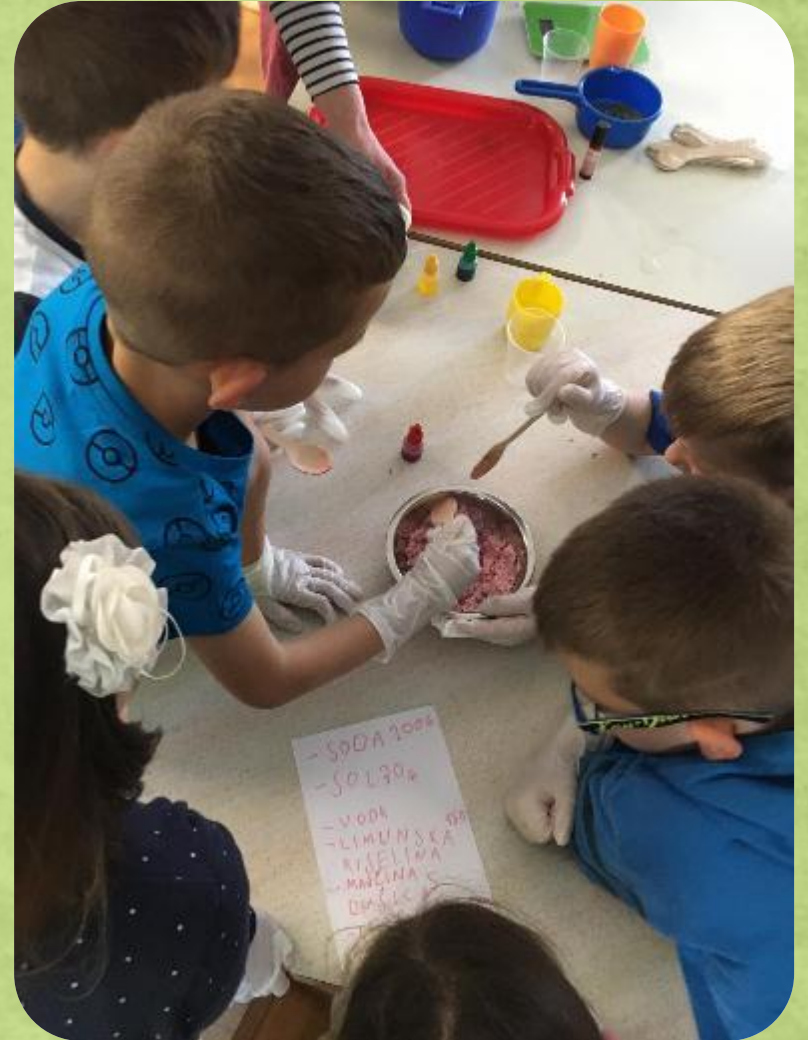

EARTH DAY

If children can take care of environment than every grown up person should do the same!

# BATH BOMBS
