# Povezovalno besedilo

1. Fast fashion - the primary choice for hundreds of millions of consumers worldwide.
  2. What is fast fashion?
  3. A clothing industry business model replicating the most recent catwalk trends and high fashion designs, mass-producing them at low cost, and bringing them to retail stores quickly while demand is highest.
  4. The most well-known brands drive the high turnover of inexpensive seasonal and trendy clothing that appeals to fashion-conscious consumers.
  5. Do you know that women account for 70 - 90 % of the working population in some export processing zones in East Asia?
  6. Cheaper sources of low-skilled labour include women and children, who are seen as compliant workers, less likely to join labour unions. They slip under the radar, making them easy to manage and employ without big brands and consumers ever even finding out.

# Pesem

This time around we see that the world is coming down.  
Pollution is going to ruin the nature that we see around.  
The kids they make your clothes while you're happy for the  
cheaper price.

Wake up and realise the big brand are just all disguises.

Fast fashion is a scam, a scam, a scam ...  
All these toxic brands, all these toxic brands ...  
The way that they fill us with all this lies  
is a scam, a scam, a scam ...
