NATEČAJ ZA OBLIKOVANJE LOGOTIPA ZA MAJICO S ČEBELAMI

Bee T-shirt logo design competition!

Why are bees so brilliant?
Bees are not your average insects; they're like the superheroes of the natural world. Living in complex colonies, they're all about teamwork and efficiency. Each bee has its role to play, ensuring the hive runs like a well-oiled machine.

But what really sets bees apart is their incredible impact on our ecosystem. As pollinators, they ensure that plants reproduce and thrive. Without bees, many of the foods we love wouldn't exist!

But bees aren't all work and no play. They know how to have fun too! They explore their surroundings, communicate with intricate dances, and, of course, make delicious honey. Plus, they're incredibly adaptable, thriving in diverse environments around the globe.

The logo design must meet the following conditions:

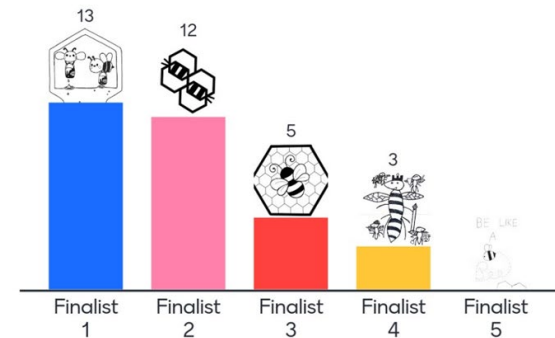

- the theme should emphasise the interdependence of bees
- it must contain the shape of a hexagon (one or more)
- it must be black and white
- it can be drawn by hand or with a computer, but the difference between the white and black parts must be clearly visible (no grayscale)
- for the same reason, hand drawings must be done with a pen or a marker, NOT with a pencil
- SIZE:
 - Hand drawn: A4 size paper, as big as possible
 - With computer: minimum 3000 x 3000 pixels, 300 DPI, format JPEG or PDF

The chosen bee logo will be printed on the t-shirts worn by Erasmus exchange students in Agliana, Italy! The winner will also receive a T-shirt with their own logo.

You can bring your original drawing to Ms. Majda (Primary) or Ms. Nina (Secondary) or send a high resolution image (foto directly from above, no shadows) to majda.krizman-zuzek@scj.si or nina.bric@scj.si **until 26.4!**
