# Sodelovanje z drugimi šolami

Hello, we are from the Czech Republic. In our class 7.C from school named ZŠ Staňkova we are working on the same project from GLOBE center as you are. Our teacher told us that you have the same tree to observe – oak.

We are excited to learn some new things about your observations and your school. We can tell you something about our school and our observations back.

Thanks for your response.

Here are some photos that we took while observing.

See you later, bye! 🌱
